

Rail Transport Statistics

Fourth Quarter, 2023

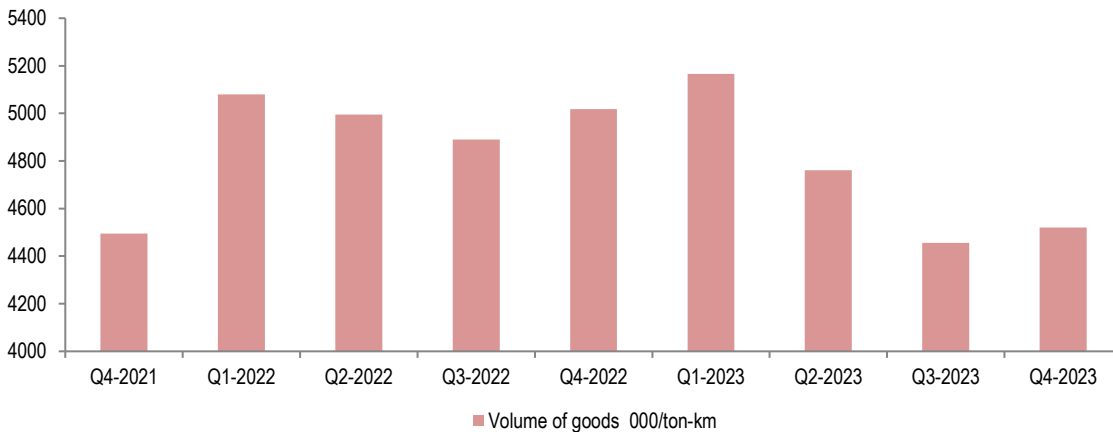

Tirana, 29 January 2024: The length of the railway network in use in Albania is 204 km. The railways lines, currently in use, are as follows: Borderline - Gjorm with a length of 93 km, Durrës - Elbasan with a length of 76 km, Fier - Vlorë of 35 km. Rail transport of freights is carried out at distances of 0 - 49 km and 50 - 150 km.

Rail Transport Statistics, for the fourth quarter of 2023, are presented as follows:

The volume of goods transported by rail is 131 thousand tons, decreasing by 8.9 %, compared to the fourth quarter of 2022.

The volume of goods transported by rail is 4,520 thousand ton-km, decreasing by 9.9 %, compared to the fourth quarter of 2022.

Methodology

The Transport Statistics publication presents the results on the transport of goods and passengers by type, as well as the export and import of goods by mode of transport, on a monthly basis. The data are administrative. The main source of information is the Ministry of Infrastructure and Energy and General Directorate of Customs.

Definitions

Transport: Movement of people and / or freights using various means of transport. Transport is carried out by rail, land, sea and air.

Rail transport: Any movement of freights and/passengers using wheeled vehicles running on rails.

Length of train tracks: For a given railways section it is the length between the midpoint of the departure station building and the midpoint of the terminal station building.

Rail Passengers: Any passenger traveling by rail vehicle, excluding persons intended for services on the train.

Ton per kilometre (TKM): The unit of measurement representing the movement of one ton of available capacity in a wagon when performing services for which a distance of mainly over one kilometre is determined.

Freights transported by rail: Any movement of freights carried out by rail, including packaging and equipment such as containers, pallets and road vehicles of freights transported by rail.

Train- kilometre: are the distances in kilometre travelled by trains.

Exports: Goods destined to a fourth country, placed under customs export or outward processing arrangements or re-exported following inward processing.

Imports: Goods arrived from a fourth country and are directly placed, or are left in warehouse, under customs procedure of release for free circulation, inward processing or processing under customs control.

Nomenclature of Transport Statistics (NST 2007): A statistical nomenclature for the goods transported by four modes of transport: road, rail, inland waterways and sea (maritime).

The data of maritime, rail and air transport are preliminary and subject to revision. For more refer: [Statistical revision policy](#).
