Methodology

The publication of Transport Statistics presents the results on the transport of goods and passengers as well as the export and import of goods according to the mode of transport on a monthly basis. The data of the publication are obtained from administrative sources. The main source of information is the data reported from the Ministry of Infrastructure and Energy and the General Directorate of Customs.

Definitions

Transport: Movement of people and / or freights using various means of transport. Transport is carried out by rail, land, sea and air.

Air transport: Any movement of freights and / or passengers using aircraft on trips, which are undertaken wholly or partly by air

Airport: A designated area of land or water (including buildings, installations and equipment) intended to be used either in whole or in part for the arrival, departure and surface movement of aircraft and open to commercial air transport operations.

Airline: An aviation enterprise operating aircraft for commercial purposes that (i) performs scheduled air transport services, or both, which are publicly available for the carriage of passengers, mail, and / or cargo, and (ii) has been certified for such purposes by the civil aviation authority of the State in which it is established.

Passenger Air Service: Scheduled or non-scheduled air service performed by aircraft carrying one or more arriving passengers and any flight listed in published schedules as open to passengers.

Air cargo and mail service: Scheduled or non-scheduled air service performed by aircraft carrying incoming cargo (freight and mail), other than passengers.

Flight Number: It's the second published initial number assigned by the air transport operator to the flight. Passengers using a flight from an aircraft may travel under a number of different flight numbers.

Carried passengers: All passengers whose journey begins or ends at the reporting airport are called.

Transported freights: Includes any cargo loaded onto or unloaded from an aircraft, excluding passenger baggage and mail.

Exports: Goods destined to a third country, placed under customs export or outward processing arrangements or re-exported following inward processing.

Imports: Goods arrived from a third country and are directly placed, or are left in warehouse, under customs procedure of release for free circulation, inward processing or processing under customs control.

The data of air transport are preliminary and subject to revision. For more refer: [Statistical revision policy](#).
